About Us

# Business Background

The size of the global online gaming market was valued at USD 53.7 billion in 2019 and is expected to grow at a compound annual growth rate (CAGR) of 11.5% from 2020 to 2027. With the popularity of the Internet, the number of online gaming platforms has increased significantly, and the rise of cryptocurrencies over the past few years has greatly boosted the global gaming industry.

Applying decentralized technology in the gambling industry is likely to trigger an industry revolution. With the emergence of new applications based on decentralized protocols, online gambling industry has become more exciting.

# BETDAO Introduce

BetDAO is the first blockchain gaming platform in Web 3.0 with over 3,000 gambling games provided by top game vendors from all over the world and many excellent self-developed games. Based on BSC, it aims to create a just and fair gaming environment where players can keep gaining huge prizes. Currently, it is the project of the greatest concern in Web 3.0 era.

## Vision

To be the biggest blockchain gaming platform in the world

## Mission

Rational to play; Fair to game

## Features

Rational allocation and high returns

Section 02

# Platform Advantage

# Platform Advantage

01

## Various Games

Over 3,000 types of games with exquisite pictures and a wide range of self-developed games can meet different needs of global payers.

02

## Big Bonus

BetDAO has a rich variety of theme activities where players can gain a considerable amount of cryptocurrency and share big bonus.

03

## Securing Data

BetDAO has the highest level of data protection. 128-bit SSL (Secure Socket Layer) technology, and fully audited smart contracts are employed to ensure game fairness and data security ;

04

## Fair and Open

Open and transparent, the core code is uploaded on chains, and the fairness of the game can be verified anytime, anywhere;

05

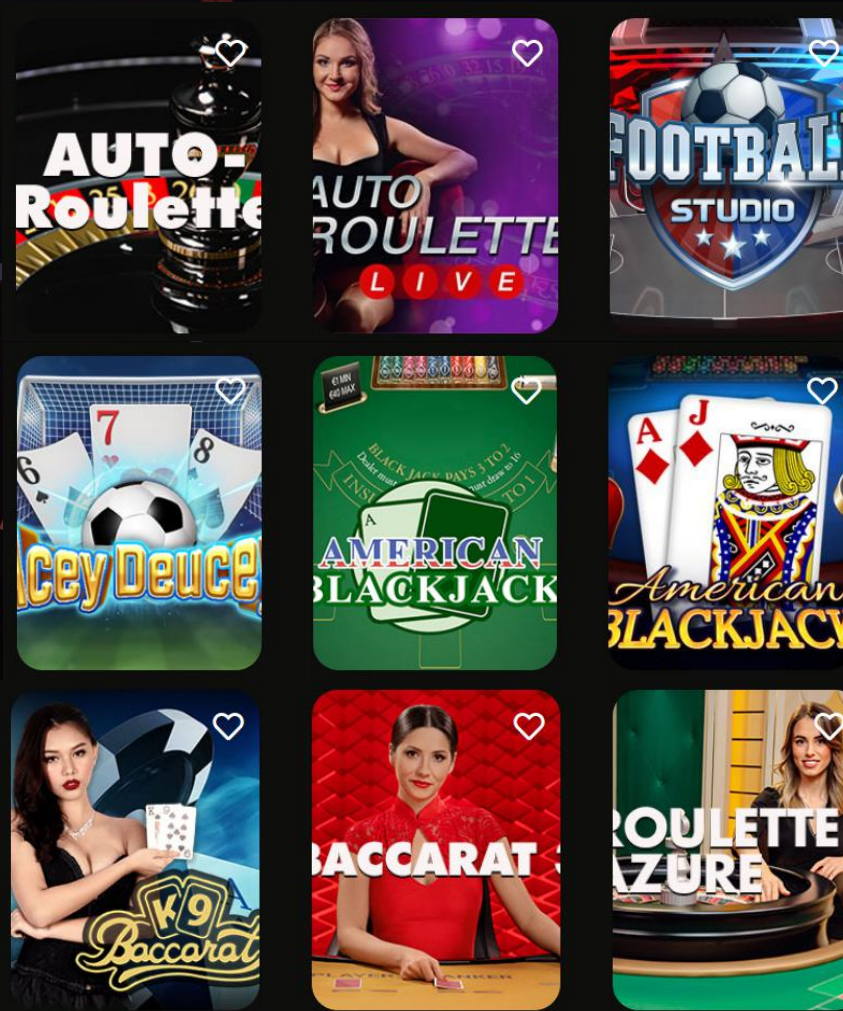

## Play To Earn

User Investment Plan: Users can invest in any games they are interested in and the smart contracts highly guarantee the assets security.

06

## Quality Service

24-hour live chat support to solve your problems anywhere anytime.

Section 03

BETDAO

Games

# BETDAO GAMES

## BETDAO Games

BETDAO has the most popular self-developed in the gaming scene; Players can use Top cryptocurrency to play; The team only cooperates with well-known game providers such as Evolution, MicroGaming, Pragmatic Play, etc. to guarantee the fairness of the games offered.

Regular gaming games are easily accessible on BETDAO. The platform offers a wide variety of slot machines, as well as exclusive table and live casino games. Try your luck in betting wars, baccarat, poker betting, dice duels, blackjack, baccarat, roulette and more.

Section 04

# Token Economics

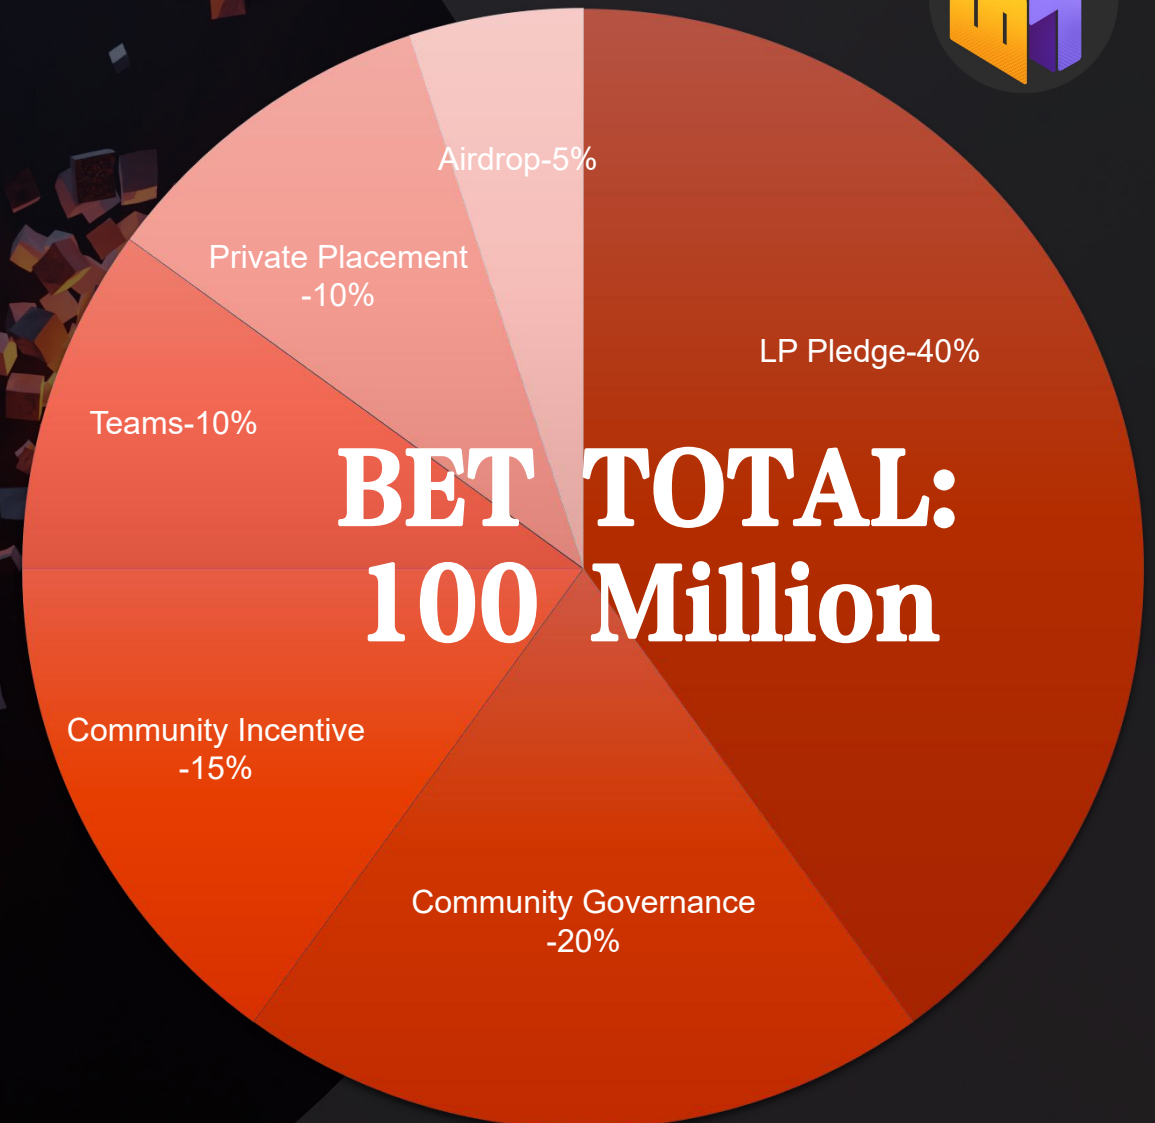

# BET TOKEN

BET is the main token of the BetDAO platform. As a governance and equity token, it is a medium used to connect all ecological applications of the platform, and also undertakes the task of depositing and withdrawing.

The liquidity of BetDAO benefits from its great capability of self-restoration, which is continuously distributed to contributors through nodes and LPs, enabling BET holders to share platform benefits.

# Application Scenarios

## BET is endowed with more application scenarios in the BETDAO ecosystem.

### 01.Pledge

The purpose of the game is to incentivize token holders to respond optimally in the most honest way to achieve their best returns, thus, enabling tusers, developers and platforms to contribute to the platform.

### 02.Governance Vote

GameFi token holders have control over the platform. Platform stakeholders (BET holders) will be empowered to manage many aspects of the platform, such as games, features, events, development, and more.

### 03.Mystery Boxes Subscription

The total subscription price of the mystery box = subscription unit price x subscription number. After the subscription is initiated, the BET in the temporary account will be frozen. After the subscription is completed, the freezing will be released.

### 04.Transaction Medium

BET will act as a trading medium in the BETDAO ecosystem; in the BETDAO trading market, a certain transaction fee will be charged for using BET to pay.

### 05.Game Application

BET will act as a consumption and transaction medium in BETDAO Games; all BET consumed in BETDAO Games will enter the burning pool, and the platform will regularly burn all consumed BET as planned.

### 06.Game Rewards

As the entire system of the GameFi platform grows, the token holders get the ultimate beneficiaries.

# Repurchase and Burn

**In order to ensure complete transparency, the BETDAO team has written the automatic repurchase and burning mechanism into the smart contract.**

## Buyback Rules

Part of the platform profits will be automatically entered into the "automatic repurchase and burning" fund pool. The smart contract will continuously read the average price of BET within 72 hours. When the current price of BET is lower than the 72-hour average price, it will trigger the smart contract to perform BET Swap and automatically burn tokens at the right time.

## Burning Scenario

BETDAO mining pool, BET trading market, BET games, BET LP liquidity mining, etc.

Section 05

BETDAO

Community

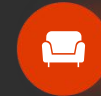

# BETDAO Community

## Participation Rewards

The BETDAO platform encourages community contributions and returns to the community in every possible way.

## Promotion ambassador

BETDAO uses an innovative co-construction system to encourage and reward all players to invite others to play together, so that the BETDAO platform becomes a thriving “all for one for all” ecosystem

## Integrate own platform

BETDAO offers a universal integrated solution for those who want to host a casino on their own website. You can use frames to embed our universal gaming platform on your own website, or customize it for you.

Activities of New Year  
Casino cooperation, event hosting

**2023.Q2**

Bet Poekr is online  
DEFI Game Investment is online

**2023.Q3**

Integration of Multi-chain and  
cross-chain (ETH/BNB/TRX)  
New cryptocurrency integration

**2023.Q4**

Strategic partnership  
Upgrade Wallet CHAT

The background is dark with numerous small, semi-transparent cubes floating in the air. A central cluster of these cubes is glowing with a bright orange and yellow light, resembling a star or a nebula. The text 'Section 07' is in white, with '07' in orange. Below it, 'Technical Support' is in large white letters. A thin orange arrow points to the right on the right side of the slide.

# Section 07

# Technical Support

# Technical Support

## Core assets will be casted into NFT

Player accounts, cryptocurrencies, and other key assets will all be preserved through blockchain technology, allowing players to transfer assets as they wish.

## Decentralized flow of assets

On-chain assets can be traded on decentralized marketplaces or other marketplaces of third parties.

## Platform NFT details will be public

Players can fully understand all the detailed data of NFTs on the platform, which helps to evaluate prices and transactions in other markets.

## Smart Contract

The core module uses smart contracts to build rich applications, making the platform free, open and fair. The team will also upgrade the platform at any time to ensure game performance.
